

Become a part of our team!

Chrestos is a CRO which offers services for pharmaceutical companies and supports scientific studies. Our team consists of statisticians, programmers, data scientists and managers, medical writers and others who believe in making the world a healthier, sustainable, and better place. Together we have fun and share our ideas and concepts while enjoying coffee or lunch together.

To enhance our team we are looking for motivated employees for

CLINICAL DATA STANDARDS MANAGEMENT (M/F/D)

Your Tasks:

- Project management of the working group for the conception and further development of a reporting system for data quality
- Reporting to the client's management on the status of the clinical data standards working groups
- Standardisation of data management and clinical programming processes
- Supervision of overall data quality
- Distribution of clinical data standards for internal users and CROs
- Surveillance of data integration and data modelling
- Leading the development of data visualisation tools
- Leading the programming of clinical trials and regulatory submissions

Your Qualifications:

- You have an above-average master's degree or PhD in statistics, data science, computer science, mathematics, bioinformatics, or other related fields.
- At least 7 years of experience in clinical data management and/or statistical programming in a CRO/pharma environment
- Comprehensive understanding of data management processes and standards as well as current regulatory requirements for data management
- Knowledge of at least one common CDMS and preferably experience in working with an EDC platform (Medidata Rave preferred)
- CDISC Standards (CDASH, SDTM, ADaM) expertise
- Experience working in cross-functional, multicultural and international clinical trial teams
- Networking skills and the ability to share knowledge and experience with colleagues
- You work in a structured, target-oriented, independent way, and can incorporate new ideas and methods into your work.
- You have excellent communication and presentation skills, are proficient in English, and have B2 German language skills.

We Offer

- An environment dedicated to sustainability
- An ambitious team that works with joy, passion, and flexibility
- Flexible, family-friendly work time and hybrid working arrangements
- Comfortable, modern workspace
- Further education for personal and professional development
- Wide range of corporate health services
- Transparent salary policy and comprehensive reward and benefit system
